

Developed by a consortium of academic, training and industrial organisations

with funding from

Textile Training on Demand

Hosiery technology is a multimedia learning system that provides fundamental knowledge on the manufacture of hosiery products.

Who is it for?

- Trainees employed in hosiery manufacturing or retailing
- Students studying textile courses
- Non-textile professionals who are now working in the industry
- Textile specialists who wish to broaden their knowledge

Contents

The content, which has been mapped to Level 3 UK National Vocational Qualifications covers:

- An overview of hosiery products
- Yarns for knitting hosiery
- Circular hosiery machines
- Hosiery products
- Hosiery patterning mechanisms
- Socks stockings tights and pantyhose structures
- Sock construction
- Stockings tights and panty-hose construction
- Hosiery dyeing and finishing operations
- Hosiery quality control
- Hosiery faults
- Hosiery production calculations
- Health and Safety

It also includes a separate module on basic weft knitting principles for learners with no prior knowledge of weft knitting

Features

- A menu driven, interactive, self-paced learning environment
- Text, graphics, photos and videos to describe and illustrate the technology used
- Glossary of textile terms and definitions
- Tests to evaluate learning
- Bibliography of references for further reading

Benefits

- Allows learners to study at a time and place convenient to them
- Complements skills development
- Can be incorporated into a "Blended learning" programme
- Can be integrated into company training programmes
